SUMMARY

"As an accomplished Software Engineer, I specialize in Front-End Development, offering expertise in crafting responsive and user-friendly web applications. My proficiency in React.js, Material UI, HTML, CSS, JavaScript, TypeScript, and Redux ensures that I create engaging and intuitive user interfaces. I excel in API integration, seamlessly connecting applications to external data sources for enhanced functionality. Furthermore, I bring a unique blend of skills in Oracle-SQL and Core Java. To complete the user experience, Implementing UI/UX design principles to create visually and user applications."

SKILLS

React.js	JavaScript	HTML5	CSS3	Material UI	Redux	TypeScript	API Integration
Oracle SQL	JSON	Router	Gitlab	Github	Microsoft Excel	Core Java	Microsoft PowerPoint

EDUCATION

Bachelor's Degree in Mechanical Engineering

Visveswaraya Technological University (VTU)

08/2019 - 07/2022

CGPA

8.1 / 10

Diploma in Mechanical Engineering

Board of Technical Education

07/2016 - 06/2019

PERCENTAGE

80 / 100

EXPERIENCE

Software Engineer

Dx-Minds Innovation Labs Pvt Ltd

06/2023 - Present

- Expertise in Front-End Technologies: Proficient in utilizing React.js, Material UI, HTML, CSS, and JavaScript to craft visually stunning and responsive user interfaces that enhance user experiences.
- State Management and Data Consistency: Demonstrated ability to effectively manage application state through Redux, ensuring seamless data consistency and delivering a smooth user experience.
- Integration with APIs: Successfully integrated APIs to streamline front-end functionality, bridging the gap between front-end and back-end services, and delivering data-driven experiences.
- Collaborative Team Player: Collaborated closely with design and back-end teams to seamlessly integrate front-end components into cohesive applications, fostering cross-functional teamwork.
- JSON Data Integration: Proficiently incorporated JSON data from diverse APIs into front-end applications, harnessing data to enhance user interactivity and engagement.
- Performance Optimization: Proven track record of optimizing front-end code to improve page load times, enhancing overall website performance.

PROJECTS

1. Cozmo: E-Commerce Application

Admin (Web portal) :

- Created Dashboard page that offers administrators insights through e-commerce analytics, interactive charts, and detailed statistics.
- Established an Order Table to facilitate easy access for administrators to review and manage order listings.
- Designed a Categories Event screen, enabling administrators to access and organize various events such as birthdays, corporate events, and more, in a structured table format.
- Incorporated user-friendly features including Edit and Delete buttons, empowering users to effortlessly modify and remove their data within the table.

PROJECTS

2. HalloClub

Profile Page Creation, Setting Page Creation and Sponsorship Event :

- A user-friendly Profile Page, enhancing the user experience and accessibility for the platform's users.
- Implemented an Edit button feature, allowing users to easily update their profile information.
- Designed and developed a Settings Page, offering users control over their account preferences and security settings.
- Collaborated with cross-functional teams to integrate and test various user preferences, including notification settings and privacy options.
- Created a multi-tab system for the managing sponsors, including "All Sponsors," "Sponsor Proposal".
- Implemented a data table to display sponsor information submitted through the Proposal Form, streamlining the management and review process.
